

Taking a Survey

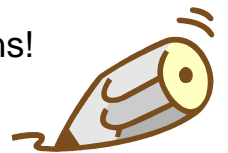

One, two, three, four!

You are counting. A SURVEY is a count. The Pennsylvania Field Office of USDA's National Agricultural Statistics Service counts livestock (cows, pigs, sheep, chickens) and crops (corn, oats, wheat, hay, soybeans, potatoes, fruits, vegetables).

We need counts of livestock and crops. A survey answers big questions!

Can you count the animals and crops on the map?

Livestock

How many cows do you see? _____

How many chickens do you see? _____

How many pigs do you see? _____

How many sheep do you see? _____

Crops

How many apples do you see? _____

How many peaches do you see? _____

How many ears of corn do you see? _____

How many mushrooms do you see? _____
